THE SOVEREIGN OF THE SEAS.—An aspirog name, indeed, to be given to a ship in these days of ship-building competition; but the Roston clipper ship, which is now loading for California in this port, bearing this lofty designation, seems worthy to claim such a superiority. She is pronounced "the longest, sharpest, and most beautiful merchant ship in the world, designed to sail, at least, twenty miles an hour, in a whole-sail breeze." She was built at East Roston, by Mr. Donald McKsy. Her extreme length is nearly 270 feet, and her breadth of beam 44 feet. Her register is 4.421 tuns. Mr. McKsy has built four other large clippers, one of which, the Stag Hound, we described when she lay at our wharves in the winter. This last and greatest of the five, we have visited with mach satisfaction. She is a proud result of human skill and power. Her admirable proportions, her graceful curve lines, her lofty masts, and her rigging, of unsurpassed completeness, her strength of construction and beauty of interior finish; all that meets the eye impresses and holds in delighted wonder the visiter to this newly growned Severeign.

Mr. McKay built this ship on his own account, and of course aimed to resulze his highest idea of a beautiful ressel. Frobably no one but a ship builder can fully sympathise with the triumphant feeling which the sight of such a pleaned its mighty proportions, and watched the execution of the whole design. And perhaps no one but a captain can understand the feelings of the master of such a ship, cut upon the wide ocean, with such a power and such a responsibility committed to him. The nations of the world have already learned what America can do upon the ocean; and when Capt. McKay comes into the harbor of San Francisco, or of THE SOVEREIGN OF THE SEAS .- An as-

with such a power and such a supp, cut upon the wide ocean, with such a power and such a responsibility committed to him. The nations of the world have already learned what America can do upon the ocean; and when Capt. McKay comes into the harbor of San Francisco, or of Macao, the eyes of a thousand seamen from all quarters of the globe will gaze with respectful wonder upon this queenly Beston clipper.

As you step on board, the first impulse is to look aloft. The sight is grand. The mainmast rises 92 feet, and the whole system of masts, yards, and rigging, so lofty and so large that it does not seem designed to be managed by human hands, arrests the gaze with peculiar power. She will spread between decen and tacies thousand yards of canvass: Her mast heads are covered with gilded balls, her yards black, booms bright, and lower masts white. Her yards are all ef slugle spars, and together with the masts, are strong enough to stand in a gale which should carry away overy thread of canvass. She has the stoulest and most beautifully proportioned set of spars we have ever seen—The bowspit is made of hard pine, is 20 feet outboard, and 34 inches in diameter. Her lower masts are made each in five places, boited and hooped together.

On the 2d of August this wonderful vessel is to put out upon her first voyage, under Cept. McKay, who will have some ninety men under him, and who is evidently fitted in no ordinary degree, for such command. No one can visit the ship and converse with the commander, without feeling that he would gladly embark for the Pacific under such auspices. If any of our citizens are contemplating such a voyage, we would say to them that they should lose to time in making themselves acquainted with this special opportunity. Messrs. Grinnell, Minturn & Co. are the agents.

We conclude by asying that a more perfect plece of naval architecture has rarely if ever made its appearance smong the merchant-ships at our wharves. We shall watch her course with interest. Success to her first voyage.

CHARGE OF PICKING POCKETS .- A CHARGE OF PICKING POCKETS.—A young man named George Kirkham was arrested on Sunday evening by Officer Wyman, of the Jefferson Police Court, having been caught in the act of picking the pocket of Mrs. Mary Quinn. of No. 9 Thirty thirds. On searching him, a pocket book containing \$10, which he had a few moments before stole from the pocket of Miss Rose McLemon, of No. 69 Mercerst, was found upon him. The theft was committed on board the ferry boat plying between the foot of Christopher st, and the Elysian Fields, Heboken. Two other females, named Mary J. Flagler, residing at No. 16s Fourth st, and Mrs. Donaldson, of No. 189 Nincteenth st, had their pockets picked on the same boat, and about the same time. The accused was taken before Justice McGrath and committed to prison.

MARINE COURT—Before Judge Cowles.

William Bankam, assignes of Alfred J. Perkins, agt. Hustington & Savage—Messrs. H. & S. are booksellers and publishers. The claim is for \$250, alleged to have been due to Mr. Perkins, (and assigned by him to plainfe?) for two months services, Mr. P. having been employed, as he states, by Messrs. H. & S. to supervise and put into circulation certain school books (among them Goodrich's Geography, Madison's Astronomy, and the works of Peter Parley) which Messrs. H. & S. were about to publish. The claim was denied. Mr Perkins gave testimony. He stated that in March, 1851, Mr. Huntington made a verbal agreement with him to the above effect, to pay \$125 per month; that he attended at the store supervising the works; went through all the public schools for the purpose of inducing the teachers to introduce the books into their schools; also, that he received an order from H. & S. on Mason & Co., Broadway, for some of the books. Two teachers of Ward Schools testified to Mr. P. having called upon them, stating that he was the agent of H. & S., and requesting that they would introduce the books into their schools.

Mr. Huntington was also placed on the stand. He denied having entered into contract with Mr. P. Mr. P. frequently called at the stare in March and April, requesting employment, and was informed that H. and S. had it in contemplation to publish an edition of a certain work, and if they did, they would employ him.

A clerk of H. S. also testified that Mr. P. did not render service as claimed—the only service was drafting a circular, of which the clerk made six copies and sent them to Massachusetts.

A letter from Mr. P. to H. and S., in which he claimed MARINE COURT-Before Judge Cowles.

them to Massachusetts.

A letter from Mr. P. to H. and S., in which he claimed \$50 for his services, which they refused, was put in evidence. Some other testimony was given.

The Court, in giving judgment, said there was great conflict of evidence, but thought the weight of testimony was in favor of the defense. Judgment for defendants.

DEMONSTRATION OF THE WHIGS OF THE ELEVENTH WARD.—A meeting of the Eleventh Ward ... Lundy's Lane Barracks" was last night hold at the Whig Headquarters, on the corner of Myrtle-av, and Navyst. At about 8 o'clock, John M. Perry, Esq., non-inated Wm. M. Muchanne, Esq., President, which was

unanimously approved of.

The Chairman made a brief address, urging the same aims of setion by the Whige of the Eleventh Ward in

the coming campaign, as had on all occasions been

evinced by their great lender.

Wm. J. Magee was then chosen Secretary, and F. A.
Tallmadge, Esq., of New-York, being introduced, made a brief and appropriate speech, reviewing the part taken by Gen. Scott through the war of 1812, during the difficuhies on the North-western frontler, the trouble between the United States Government and South Carclins, and the war with Mexico. He alluded to the cleud now rising in the East, and asked where the man was who could be more confidently entrusted with the reigns of Government than Gen. Scott, in the crisis that was now, apparently, approaching. Every one knew of Gen. Scott, but who knew anything of Gen. Pierce? He ventured the assertion that not twenty men in the room knew anything at all about him. The speaker, however, disclaimed making any remarks derogatory to Gen, Pierce's character. He had been to Mexico and came back safe, and was a ciever fellow, who could laugh, drink and be jovial with the rest of us. He concluded by eulogizing Gen. Scott as a military man and as a civillan, and was confident of his election.

Horace N. Congar, of New-Jersey, was next intro. duced, and made an eloquent appeal in favor of the Whig candidates, referred in glowing terms to Henry Clay, advocated a tariff for the protection of American industry, and spoke in favor of the improvement of

rivers and harbors.

During the course of the meeting a song was sung and a humorous story told, which kept the audience in good humor until a late hour, when the meeting ad journed with long and loud cheering for Scott and Graham. The meeting was a very large one, and passed off well.

HIGHWAY ROBBERY .- Last Thursday night, as Mr. Zeph. Conkiln, of New Lotts was pro-ceeding home on foot, when near the hotel of Hiram Woodruff, on the Jamaica Plank Road, he was attacked by two men and severely beaten and robbed of \$175. The cries of Mr. C. brought Mr. Woodruff to his assistance or in all probability he would been killed. The Justice at New Lotte issued a warrant for the arrest of the offenders and they were soon after taken into cus-tedy and held to answer. The warrant charges them with highway robbery and assault and battery with in-tent to kill. The parties have heretofore been on good terms, and we learn of no cause assigned for the act.

Third Ward Police, for unhinging a number of iron

Police Business .- Monday morning, Police Business.—Monday morning, as usual, the business in the Police Courts was pretty brisk. Above thirty cases were disposed of, mostly drunk and disorderlies. Among those brought up, were three young men who were charged and convicted of despoiling the apple trees on the premises of Theodore Polhemus, of the Eighth Ward, and carrying off a large quantity of green fruit. They were each fined in the sum of \$5. A man named Barr was arrested for throwing hot collee into the eyes of a follow-boarder, named Cudden, and otherwise maltreating him, for which offense he was fined \$25, and held in \$250 ball to keep the peace for six months.

the Stock Board this morning, but the advices from the Codfish District were used to some effect by the operators for a fall. The Fancies generally fell off. At the Second Board the feeling was very much improved, and a portion of the decline of the morning was recovered. The sales were not large, but the demand was active at improved prices, and after the Board there were hidders at the full closing prices. For Federal Stocks there was a good demand at Saturday's prices. State Stocks were firm. The advices from London stiffened Erie Bonds, but the demand for Railroad Bonds is not large.

In Sterling there is as yet no activity. The market is better supplied at 104 @1016 for leading

The Phenix Bank has sold in London \$200,000 of Certificates of the Ohlo Life and Trust Co. due in 1855, bearing 41/2 P cent. Interest. They were sold at par. These Certificates were issued to the Bank when under the administration of Mr. Delafield, for a loan made to the Trust Co, with certain collateral, advantages, and have since been held by the Bank until the present favorable opportunity for reimbursement.

This sale will furnish some Exchange for the Wednes.

The private letters by the steamer speak of some renewal of activity in American Securities and an improved feeling in regard to them. One banker tates that in the present plethora of capital, it must send for investment to American Securities. Another ays: "The Michigan Central and the Illinois Central Losns are all subscribed." We presume, however, that this last loan is closed only in the event that the explanations asked for on one or two points from the managers on this side are satisfactory, which there is no doubt they will be. These explanations would be received in London in a few days after the sailing of th teamer just arrived here. Erie Convertibles we active demand at 91, an advance of 2 & cent., and held firmly at 92 and above. There were but few in market, and none were expected from the Continent, even under this rise. Virginias were selling freely at 9914 @100, and the supply was nearly exhausted. There was also a good inquiry for the new Pennsylvania Loans. The market for English shares was also more active and

Within the past week about \$150,000 Wheeling City Six Per Cent. Bonds, guaranteed by the State of Virginia, have been sold here at 107. The City cwns stock in the Baltimore and Ohlo Railroad Company for all their bonds, and the guarantee by the State makes them nearly if not quite equal to State Stocks. They were taken for home investment.

The Empire City brings a contribution of a million and a half in gold, to our already superabundant stock of coin.

And I will be supplyed to see the supply of the supply of

business of the Charleston and Hamburgh Railroad for the first six months ending with June: 

There is a large demand for money at

Boston, but no important change in rates. The Boston

Courier says:

On Saturday the creditors of the late Treasurer of the Vermont Central Railroad made application to the Cemmissioner of Insolvency, stating that an arrangement had been made between the creditors and debtor, by which the estate of the latter could be much more advantageously settled than by the Insolvent law, and asking for an order vacating all proceedings in the case. It is understood that by the arrangement referred to, the wife of the deotor is to reliquish to the creditors all her rights in a very large amount of real estate, consisting of lands, houses, stures, hotels, &c. The Central Raitroad Corporation has exchanged a considerable amount of its second-class bonds at 83 for the overdue bonds of 1850. Thus reducing the amount now outstanding to about \$200,000; the Company have also resumed the payment of interest coupons in cash. As there is no longer to be any competition between the Central and Canada, and the Ruiland and Burlington lines, inoper are entertained that with a judiciously advanced tariff, a new ard improved era is about to commence in the yrosperity of both Companies.

The late card of Gen. Hamilton to the

The late card of Gen. Hamilton to the creditors of Texas, has elicited the following notice from his colleagues in the Committee, which we find in the Washington papers:—
As members of the Committee of Three, appointed by

the creditors of Texas, we have seen with regret the publication made by Gen. James Hamilton, Chairman of said Committee, urging the creditors generally to au-thorize him to set for them, and second to certain terms connected with the distribution of the five militions of five per cent, stock still held by the Treasury. We deem it our duty to state, that the General's pub-

lication was made without our concurrence.

We regard the course recommended by him as injurious to the general interests of the great bulk of the creditors. H. M. WATTERSON. JOSEPH L. WILLIAMS. Mr. James S. Helman, in a communication to The Union, takes decided ground against the course recommended to the creditors of Toxas by Gen. Hamilton, and

"According to the General's policy, for \$914,760 of securities represented by bito, there will be paid \$800,000—not far short of 90 cents on the dollar.

"While, of others not represented by him, only \$818,963 are paid on securities amounting to \$3,530,454—less than 23 cents on the dollar.

"If these examples fail to flustrate Gen. Hamilton's policy, perhaps the case of Gen. Lestic Combs, of Kentucky, may supply the deficiency of light.

"If Gen. Hamilton's policy should prevail, General Combs, with a righteous demand of about \$170,000, gets not a solitary cent." There are others whose demands amount to hundreds of thousands of dollars, who share Gen. Combs' iste."
